Waterproof: IP55
Hose Tap Connection:
NH3/4"External Thread G3/4 External Thread
Max RF Power: +10dBm
Operating Frequency: 2.400GHz
Wireless Protocol: Bluetooth

3

Preparation for Use

- 1) Download MOES App on App store or scan the QR code

MOES App is upgraded as much more compatibility than Tuya Smart/Smart Life App, functional well for scene controlled by Siri, widget and scene recommendations as the fully new customized service.
(Note: Tuya Smart/Smart Life App still works, but MOES App is highly recommended)

- 2) Registration or Log in

Enter the Register/Login interface; tap "Register" to create an account by entering your phone number to get verification code and "Set password". Choose "Log in" if you already have a MOES account.

4

Meet the Hose Faucet Timer

Range: 50ft without interference
Pressure operating range: 2.9-116 psi
Temperature operating range: 40.1°F-113°F(4.5°C-45°C)
For outdoor use with cold water only
Not for use with appliances
Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel cadmium) batteries. Used up or dead batteries must be removed from the timer and disposed of properly.

5

Add Device

1. Make sure your phone is connected to Bluetooth.

2. Enter configuration mode Press and hold one of the "on/off buttons" for more than 5 seconds until the two green lights flash quickly at the same time, and the water valve timer enters pairing mode.
3. Open MOES App, then the prompt page will automatically show on the screen. Click "Add", Select the device you want to add and click "+".

6

4. Click "Next", waiting for completing the connection. Add the device successfully, you can edit the name of the device to enter the device page by click "Done".

5. (Optional). Open the MOES APP, make sure that the Bluetooth gateway/wired multimode gateway is connected to the APP, enter the gateway and click "Associate Bluetooth devices". Then select the device you want to add and Finish adding.

7

Meet the App Home Screen

8

Initial Water Timer Setup

- 1) Insert Two AA Batteries

Batteries are not included and you will need two alkaline AA batteries to power your timer. Remove the battery tray and install the batteries according to the drawings located in the tray. Firmly reinstall the battery tray back into the timer.

- 2) Install the Timer

Connect the timer to an outdoor hose faucet. Your timer is now ready to be used with any product that can be attached to a standard hose faucet.

- ⚠ Do not place the timer in an underground valve box or anywhere your Bluetooth signal will be obstructed.

- 3) Turn on Your Faucet

The Faucet must remain on for the timer to work properly.

Additional Water Timer Features

Manual Watering

Your timer has the ability to allow you to manually water without disturbing the programmed schedule. Manual is used to test equipment, run an extra watering cycle in an area, or to use the hose faucet without removing the timer. Press the ON/OFF button to activate manual watering. Using the app you can set how long you want the preset manual cycle to run for.

9

Stop Watering

You can stop the flow of water at any time whether it is during manual watering, or during a programmed time. Press the ON/OFF button once to stop watering.

Control your home with your voice

Devices are compatible with Amazon Alexa and Google Home supported functionalities. Please see our step-by-step guide on: <https://www.moestech.com/blogs/news/smart-device-linked-voice-speaker>

Warm Tips

When expecting freezing temperatures, timer should be removed from the faucet and stored indoors to avoid potential freeze damage. Please remember to clean the filter regularly and replace it if worn.

Troubleshooting

Q: Why the bluetooth water timer didn't turn on/off at preset time?

- A: 1.Programming is incorrect
2.Water pressure is too low
3.Particles of dirt or debris stuck in valve
4.More than one start time is programmed with overlapping schedules
5.Manual watering is on
6.Faulty valve
7.The faucet is off
