
1. Product Introduction

HD camera module, based on standard H.265 technology, support 2MP and 3MP resolution, provide complete function interface and supporting program. Suitable for family baby care, elderly care, children's homework tutoring, suitable for home, office, school, shopping malls, outdoor and other occasions, comes with WiFi module, temperature and humidity sensing chip. Cry detection function, TF card slot, build wireless connection and local video recording function.

2. Picture

3. Product Features: temperature detection, crying and other large shell sound detection, intelligent humanoid triggered alarms, remote APP play children's music function

4. Technical Parameters

System	Main Processor	Industrial Embedded Micro-controller fuhan8632
	Operating System	Embedded LINUX
Video	Image Sensors	200W/300W pixel CMOS
	Coding Standard	H.264
	Video Standard	PAL、NTSC
	Image Quality	2304*1296/1280*720/640*480/320*180
	Video Quality	1280*720/640*480
	Motion Detection	Support
	Min illumination	0.1LUX/F1.2
	Capture Function	Support
	Video Flip	Support
Audio	Coding Standard	amr
	Audio-in	Support
	Audio-out	Support
Record	Record Mode	Manual recording, dynamic detection recording, timed recording, alarm recording
	Preservation	TF Card
	Remote Playback, download	Support
Alarm	Alarm Input	No
	Motion Detection	Video Push, Alarm Recording, Capture, Send Email
Network	Ethernet	Support Wireless
	Wireless Network	802.11b/g/n
	Streaming	Triple Streaming
	Network Protocol	Support TCP/IP, RTSP, ONVIF
	Cloud Network	TUYA Smart
	WIFI Network	Tuya AirJoin

Extensions	IR-CUT	Support
	TF Card	Support
	WIFI	Support
	433MHz Module	Not Support
	GPIO	Not Support
Electricity	Power	DC 5V 1A
	Power Consumption	24W
Condition	Temperature	0°C - + 55°C
	Humidity	10% - 90%
Others	LED	6 PCS Infrared Lights
	Lens	6PCS IR Lights, 3.6MM
	Size	90*85*150
