- Bluetooth configuration follow below steps.

- Manual configuration, when blue light of device blinks quickly, press Reset key for 5 seconds till the blue light blinks slowly, click "+" in top of right or "Add device" in middle blank by APP home page, choose "sensors" → "CO alarm(WiFi)" → indicator light blinking slowly → input WiFi password(support 2.4G WiFi only, not 5G) → choose "Smartlife_XXXX" from WiFi list → return to App and manual configuration success.

- After configuration success, click the icon of CO detector to check alarm status and detection value (when concentration over 128ppm APP shows value, wait for 2 minutes to quit alarm then shows 0ppm)

- It reports to APP automatically when there is malfunction with CO sensor, the orange indicator light flashes twice every 40 seconds, the buzzer beeps twice, and the screen shows "ERR."
