2. Your smart phone or tablet should have connected a 2.4G WiFi internet
3. The device only supports 2.4G WiFi. If you use a 5G router (it provides two WiFi Signal: 5G and 2.4G), please select the 2.4G WiFi to connect your smart phone.
4. Download and install the Tuya Smart APP or Smart Life APP from APP Store or Google Play Store. Register and log in.
5. During pairing process, make sure that your IOS or Android device and the device are within the range of your WiFi router.
6. Make sure your router is MAC-open, if not, please cancel the router's MAC filtering setting first

Specifications

IOS APP / Android APP

Add Device

1. Power up the device by micro-USB or 7 – 32V terminal
2. Keep pressing the pairing button (for 5 seconds) until the LED indicator fast blinks
3. Launch the APP, Tap the icon + on the top right to add a device. Then select Electrician → Socket (WiFi), confirm the indicator LED rapidly blinks.
4. Select the 2.4G WiFi as the one your mobile device connects with, Input correct passwords. Then, Tap Next.
5. It will auto-connect with the device. The process will take 1 minute. Once the process is complete, it will prompt you that you can rename the device. Enter a new name and Save.

⚠ Note: If you fail to add it during the process, it will prompt you the FAQ, please read carefully and retry accordingly.

Inching mode

Once you press the manual switch or control from the app, the relay will activate for a moment (The time you set on APP), then release automatically.

You can use it to control the gate/door opener/ elevator/computer/remote controller key/ any momentary buttons.

Selflock mode

Once you press the manual switch or control from the app, the relay will activate to keep ON or OFF normally

You can use it to control the light/fan/humidifier or other home appliances.

Work with Alexa
