6. Once connected, the App will prompt the connection, then click "Done".

① Into the home page

② Select the corresponding product model pairing

③ Start pairing

④ Enter the Wifi password

⑤ The equipment connected to the Internet

⑥ Distribution network success

Support 3rd Party Control

① Type the edit menu of the user panel

② Select the third-party application to be operated.

③ Follow the instructions in the tutorial to connect and use.

Warm Tips

- Please check whether the device is connected with power and your phone is connected with Wi-Fi.
- Check routers: If the router is dual-band router, please select a 2.4GHz network to add device. You also need to open the router broadcasting function.
- Set up the wireless router: Set encryption method as WPA2-PSK authorization type as AES, or set both as auto. The Wireless mode cannot be only 5GHz. Please name router Wi-Fi in English. In order to stay strong Wi-Fi signal, please keep device and router within a certain distance.
- Check whether connected devices have reached the Maximum number router connection. If so, please try to turn off the Wi-Fi connection of some devices.
- Make sure router wireless MAC filtering function is enabled.
- Remove the device from the filter list and make sure that router is not prohibiting device from connection.
- Make sure the entered password is correct when adding a new device.
- App for more operations, please refer to the corresponding application tutorial.

FCC Statement

The device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
[1] This device may not cause harmful interference, and
[2] this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Warranty description

This product has one-year warranty from the day after signing. Please contact us if you have any questions or issues.
