INTRODUCTION

Thanks for choosing XM COSY+ Low Voltage Mushroom Lights. Please read the user manual carefully and keep it for future reference.

SAFETY INSTRUCTIONS

Read and follow all safety instructions before installing the low voltage mushroom lights.

- Sockets used to power mushroom lights should comply with all national and local electrical codes. If you are unsure of compliance requirements, please consult your local electrician.
- Do not use in water. Please connect power cords in deep together and tighten the protective cover. Especially for the interface at the end, please be sure to put on the protective cover. Keep the plug and socket dry.
- Please keep children away from these lights.
- Keep lights away from flammables and fire sources.
- Avoid placing the lights near potentially dangerous sources.

DO NOT EXCEED RATED CAPACITY.

FCC Notice:

This device complies with Part 15 of the FCC Rules. Operation is subject to the two following conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

CAUTION: Suitable for outdoor use.

service.2@xmcosy.com

2

ASSEMBLE

Step - 1

1. Rotate the light cap clockwise and tighten it.

2. Connect the light pole and ground stake.

Step - 2

Connect the light cables in turn.

1. Align the positioning point.

2. Tighten connectors.

3. Tighten the waterproof cover.

Notes:

1. If the connectors are not aligned, the color of the mushroom lights will be different or be inconsistent with the color setting in the APP.

2. Without the waterproof cover, the light cable may submerge in water, which will cause a short circuit.

3

ASSEMBLE

Step - 3

Connect the installed mushroom lights and the light cables in turn.

Step - 4

1. Connect the extension power cable to the light cable & power adapter.

2. Plug the power adapter into the power outlet.

4

ALEXA PAIRING INSTRUCTION

1. Download the Amazon Alexa APP

Search the keywords "Amazon Alexa" in the App Store for iOS device and in the Google Play for Android device.

2. Sign in or register a new account

3. Pair the Amazon Alexa APP to Amazon Echo Device (follow the Amazon Echo User Manual)

4. Log in your Amazon Alexa APP

Important tips: please make sure the "XM COSY" app, Amazon Alexa APP "Amazon Echo" are connected to the same Wi-Fi network.

18

ALEXA PAIRING INSTRUCTION

5. Enable "XM COSY" skill in Alexa APP

a. Click "Skills & Games" in the MORE MENU on the Alexa APP's home page.

19

ALEXA PAIRING INSTRUCTION

b. In the popup page, input "xmcosy" in the search bar, click "XM COSY" in the search result and click "ENABLE TO USE" in the popup page to enable the skills.

20

ALEXA PAIRING INSTRUCTION

c. Click "Agree and link", then "Your XM COSY account has been successfully linked".

21

ALEXA PAIRING INSTRUCTION

6. Enjoy Amazon Alexa Control

Now with Amazon Alexa, you can take control the mushroom lights by asking it to change colors, turn lights on and off by using simple commands.

For example, using these Alexa commands below:

"Alexa, Turn on/off (Specific light)"

"Alexa, Set the (Specific light) to green"

"Alexa, Set the (Specific light) to red"

"Alexa, (Specific light) lights fifty"

"Alexa, (Specific light) out"

Tips:

(Specific light) is the device name you named on XM COSY APP.

22

GOOGLE ASSISTANT PAIRING INSTRUCTION

1. Download the APP

Search "Google Home" in the App Store for iOS device and in the Google Play for Android device to install.

2. Sign in or register a new account

3. Pair the Google Home APP to Google Home Device (follow the on-screen steps)

4. Link XM COSY account in set up devices

a. Click the "+" icon in the upper left corner of home page, then click "set up device".

23

GOOGLE ASSISTANT PAIRING INSTRUCTION

b. Click "Works with Google"

c. Input "XM COSY" in the search bar.

d. In the new window, select your XM COSY account's region, input your XM COSY account and password, then click "Next Step" and "Authorize".

24

GOOGLE ASSISTANT PAIRING INSTRUCTION

5. Enjoy Google Home Control

Now you can take control the smart mushroom lights through Google Home by asking it to change colors, turn lights on and off by using simple commands.

For example, using these voice commands below:

"Google, Turn on/off (Specific light)"

"Google, Set the (Specific light) to green"

"Google, Set the (Specific light) to red"

"Google, (Specific light) lights fifty"

"Google, (Specific light) out"

Tips:

(Specific light) is the device name you named on XM COSY APP.

25

TROUBLESHOOTING

Question	Solutions
1. Why the colors of lights are different or can't respond to the same color in the APP?	The cables are connected incorrectly. Please check all connectors and connect them by aligning the point. (Include the connection to the power controller.)
2. Could the power adapter hold more than 6 lights?	No. The power adapter is 36W max and only can hold 6 lights in total. For more lights connecting, please contact XM COSY+ Customer Service Team [service.2@xmcosy.com]
3. The lights can't connect to the APP.	1. Please update the APP to the newest version. 2. Please turn on Bluetooth, 2.4GHz Wi-Fi, mobile data, and locations when connecting the devices. 3. Please try to connect the phone with a hotspot rather than Wi-Fi to see whether it's the problem with Wi-Fi. 4. If the routing security level is very high or incompatible with the APP, it will cause the problem of can't connecting to the APP. Please lower the security level of your router to make it compatible with XM COSY APP. Or send us your router model for further solutions.
4. Home network is 5GHz.	The wall penetration capability of 5.0GHz is weaker than 2.4GHz, which means that the outdoor signal of 5.0GHz is worse than 2.4GHz. Therefore, most smart devices support 2.4GHz networks or dual-frequency networks of 2.4GHz and 5.0GHz. You can log in to the management page of your router and change the SSIDs of the 2.4 GHz and 5 GHz networks to differentiate them.
