## COB RGBW Digital LED Flexible Strip Light

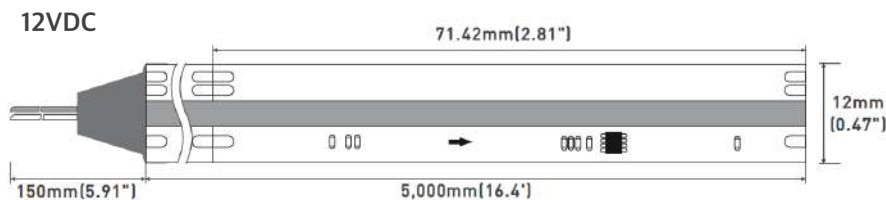

840 Chip  
Digital-SPI RGBW

| Product No | Voltage | Color | Watts | Lumen | Efficiency | Segment | PCB Width |
|------------|---------|-------|-------|-------|------------|---------|-----------|
| 31840      | 12VDC   | Red   | 1.8W  | 21.6  | 12         | 71.42mm | 12mm      |
|            |         | Green | 1.8W  | 144   | 80         |         |           |
|            |         | Blue  | 1.8W  | 18    | 10         |         |           |
|            |         | White | 3W    | 180   | 60         |         |           |
|            |         | RGBW  | 7W    | 350   | 50         |         |           |

### Dimensions

### Main Features

- RGBIC digital LED strip,dotless dream color with COB design.
- 256 level gray chip is used to achieve more delicate change effects.The chip keep consistent brightness and mixing effects in 8M from beginning to end.
- 14 pixels per meter,cutting distance is less than 8cm.
- Double layer FPC, balancing the voltage dropping, heat dissipation and flexibility.

| IP Rating | IP20 | IP67A                        | IP67B                    |
|-----------|------|------------------------------|--------------------------|
| Section   |      |                              |                          |
| Material  | none | Inject with Heat shrink tube | Inject with silicon tube |
