

RGBCW DIY LED Flexible Sheet

- **24x12 5-in-1 RGBCT LED layout with 24 individual circuits:** The flexible LED light panel which provides a wide range of color options, including RGB colors and color temperature from warm to cool white 2600K~6500K
- **Ultra thin color changing flexible LED sheet:** 480mm*240mm. Utilizing an ultra-thin flexible printed circuit board. The RGBCT flexible LED light panel can be easily integrated into the surface of mounting object without adding bulk. Connect to an external RGBCT controller to display various RGB lights and CCT color temperature lights.
- **Flexible LED sheet can be cut to size.** Each individual circuit includes 2*3(6LEDs). It can be customized to meet specific lighting needs. The feature makes it suitable for a variety of installations from small accent lighting projects to large-scale application in areas such as backlighting. Its adhesive backing makes installation quick and easy with no additional mounting hardware required.
- **Wide application:** Mainly used for backlight, translucent materials such as marble, onyx stained glass and acrylic, perfect for home and hotels, shopping malls. You can cut it into special shapes for signage and logo lighting.

Dimmable

120° Beam

RGBCW

Product Code	32448
Sheet Size	L480mm*W240mm*H8mm
Input Voltage	DC24V
LED Chip	SMD5050 5IN1
Light Color	RGB+CCT (2600K~6500K)
LED Quantity	288LED/Sheet
Working Power	90W
Cut Unit	6LED
CRI	>90
Lifespan	+50,000 hours
Beam Angle	120°
Working Temp	-25~60°C
Waterproof Rating	IP20
Wire Length	15cm
