

Multimode Gateway

Wired version

PRODUCT INTRODUCTION

The wired multi-mode gateway is the control center of smart home. Intelligent devices such as zigbee and Bluetooth mesh can achieve interconnection through the gateway. The gateway and other smart devices can be freely combined into a flexible and diverse system to realize remote control of smart home devices with mobile phones and linkage with automation scenarios. Such as letting the lights automatically turn on when you go home, automatically turning off household appliances when you leave home, detecting and reminding abnormal events, and so on, it is very convenient to control the smart home.

Tip: This product is only for indoor use

Tip:

Reset button: long press to restore factory Settings;

Network port: A network cable is inserted.

Upgrade interface: debug the device and upgrade the software for the device;

Third-party sub-device access: Provides the third-party sub-device access function.

Power interface: Insert the power interface to supply power to the product.

CONNECT TO THE TUYA SMART APP

This product has been connected with Smart Life, which can control the Smart device through Smart Life APP and interconnect with other products. Scan the QR code to download and install Smart Life APP. Users who have installed Smart Life APP will directly enter the device connection page. Or search the app store for "Smart Life" and download and install the app. Open the home page of Smart Life APP, click "+" in the upper right corner to enter the "Add Device" page, then select the gateway central control, then select the wired gateway, and add the device as prompted by the APP.

Scanning QR code
Download "Smart Life APP"

Tips:

Before adding this device, ensure that the mobile phone is connected to a 2.4GHz Wi-Fi network. For smooth connection, keep the mobile phone close to the gateway and ensure that the mobile phone and gateway are on the same Wi-Fi network.

Due to the upgrade and update of Smart Life APP, the actual operation may be slightly different from the above description. Please follow the instructions in the current Smart Life APP.

THE NAME AND CONTENT OF THE HAZARDOUS SUBSTANCE
IN THE PRODUCT

Part name	Harmful substances					
	PB	HG	CD	CR (VI)	PBB	PBDE
plastic	O	O	O	O	O	O
hardware	O	O	O	O	O	O
components	O	O	O	O	O	O
accessories	X	O	O	O	O	O

This table is prepared in accordance with SJ/T 11364

O Indicates that the content of the hazardous substance in all homogeneous materials of the part is below the limit requirements specified in GB/T 26572

X Indicates that the hazardous substance exceeds the limit requirements specified in GB/T26572 in at least one homogeneous material of the part.
